

## SHALL WE MAKE A CHARIOT RACE?

### HOW CAN YOU DO IT?

- 1) Decide which team you want to be (the colours they used were red, green, blue and white) and paint the chariot with the colour you have chosen.

- 2) Cut it out and fold it along the dotted lines as shown in this diagram.

- 3) Put it on a flat surface (the floor, a table...) and you can start the race. The chariots will move forward only if you have good lungs.

¡Good luck!
